PHILOSOPHY OF THE PROGRAM

MGM New Bombay College of Nursing (NBCON) is a constituent unit of MGM Institute of Health Sciences (MGMIHS) Navi Mumbai. The philosophy of NBCON is in consistent with the philosophy of MGMIHS and Indian Nursing council New Delhi;

We believe that

- Excellency in health care can be achieved through innovative research and through excellence in education of the health care professionals.
- Post graduate programme is essential to prepare nurses to improve the quality of nursing education and practice in India.
- Post graduate programme in nursing builds upon and extends competence acquired at the graduate levels, emphasizes application of relevant theories into Nursing practice, education, administration and development of research skills.
- The programme prepares nurses for leadership position in nursing and health fields who can function as nurse specialists, consultants, educators, administrators and researchers in a wide variety of professional settings in meeting the National priorities and the changing needs of the society.
- This programme provides the basis for the post master programme in Nursing.
- The programme encourages accountability and commitment to lifelong learning which fosters improvement of quality care.

M.Sc NURSING PROGRAMME

AIM:

The aim of the postgraduate program in nursing is to prepare graduates to assume responsibilities as nurse specialists, consultants, educators, administrators in a wide variety of professional settings.

OBJECTIVES OF POST BASIC B.Sc NURSING PROGRAMME:

On Completion of the two year M.Sc Nursing programme, the graduate will be able to:-

1. Utilize/apply the concepts, theories and principles of nursing science
2. Demonstrate advance competence in practice of nursing
3. Practice as a nurse specialist.
4. Demonstrate leadership qualities and function effectively as nurse educator and manager.
5. Demonstrate skill in conducting nursing research, interpreting and utilizing the findings from health related research.
6. Demonstrate the ability to plan and effect change in nursing practice and in the health care delivery system.
7. Establish collaborative relationship with members of other disciplines
8. Demonstrate interest in continued learning for personal and professional advancement.

DURATION

Duration of the course is 2 years for M.Sc. (N)

Available	52 weeks
Vacation	4 weeks
Examination	2 weeks
Gazetted holidays	3 weeks
Total weeks available	43 weeks
40 hours per week	1720 hours
Total hours for 2 years	3440 hours

REGULATIONS FOR EXAMINATION

Eligibility for appearing for the examination:

75% of the attendance for theory and practicals. However 100% of attendance for practical before the award of degree

Classification of results:

- 50% pass in each of the theory and practical separately.
 - 50-59% Second division
 - 60-74% first division
 - 75% and above is distinction
 - For declaring the rank aggregate of 2 years marks to be considered
-
- If the candidate fails in either practicals or theory paper he/she has to re- appear for both the papers (theory and practical)

 - Candidate, who fails in any subject, shall be permitted to continue the studies into the second year. However the candidate shall not be allowed to appear for the Second year examination till such time that he/she passes all subjects of the first year M.Sc nursing examination. The maximum period to complete the course successfully should not exceed 4 years

ADVANCED NURSING PRACTICE

Placement:- First Year

Hours of instructions : -Theory: 150 hrs

Practical: 200 hrs

Total : 350 hrs

Course Description

The Course is designed to develop understanding concepts of theoretical basis of advanced nursing practice and critically analyze different theories of nursing and other disciplines.

Objectives: At the end of the course students.

1. Appreciate and analyze the development of nursing profession.
2. Describe ethical, legal, political and economic aspects of health care delivery and nursing practice.
3. Explain bio psycho-social dynamics of health, lifestyle and health care delivery system.
4. Discuss concepts, principles, theories, models and approaches relevant to nursing and their application.
5. Describe scope of nursing practice.
6. Provide holistic and competent nursing care following nursing process approach.
7. Identify latest trends in nursing and the basis of advanced nursing practice.
8. Perform extended and expanded role of nursing.
9. Described alterative modalities of nursing care.
10. Describe the concept of quality control in nursing.
11. Indentify the scope of nursing research.
12. Use computer in patient care delivery system.
13. Appreciate importance of self development and professional advancement.

PRACTICALS

Sr. No.	Area	Duration in weeks
1	Specialty Area – inpatient unit	2
2	Community Health Center / PHC	1
3	Emergency / ICU	2

Activities

- Prepare case studies with nursing process approach and theoretical basis
- Preparation of comparative picture of theories
- Family case work using model of prevention.
- Annotated Bibliography.

Methods of Teaching

- Lecture cum discussion
- Seminar
- Panel Discussion
- Debate
- Case Presentation
- Exposure to Scientific Conferences
- Field Visits

Methods of Evaluation

- Tests
- Presentation
- Seminar
- Written Assignment

Visits-

- Telemedicine Unit
- Biomedical waste management unit
- Infection control unit
- Old age home

NURSING EDUCATION

Placement: - First year

**Hours of instruction: - Theory : 150 Hrs
Practical: 150 Hrs
Total : 300 Hrs**

COURSE DESCRIPTION

This course is designed to assist students to develop a broad understanding of fundamental principles, trends and issues related to education and nursing education. Further, it would provide opportunity to students to understand, appreciate and acquire skills in teaching and evaluation, curriculum development, implementation, maintenance of standard and accreditation of various nursing educational development, implementation, maintenance of standard and accreditation of various nursing educational programs.

Objectives:-

At the end of course, students will be able to:

1. Explain the aims of education, philosophies, trends in education and health: its impact on nursing education.
2. Describe the teaching learning process.
3. Prepare and utilize various instructional media and methods in teaching learning process.
4. Demonstrate competency in teaching, using various instructional strategies.
5. Critically analyze the existing nursing educational programs their problems, issues and future trends.
6. Describe the process of curriculum development, and the need the methodology of curriculum changes, innovation and integration.
7. Plan and conduct continuing nursing education programs.
8. Critically analyze the existing teacher preparation programs in nursing.
9. Demonstrate skill in guidance and counseling.
10. Describe the problems and issues related to administration of nursing curriculum including selection and organization of clinical experience.
11. Explain the development of standards and accreditation process in nursing education program.
12. Identify research priorities in human education.
13. Discuss various models of collaboration in nursing education and services.
14. Explain the concept, principles, steps, tools and techniques of evaluation
15. Construct, administer and evaluate various tools for assessment of knowledge, skill and attitude.

PLANNED ACTIVITIES:-

- Panel discussion / group presentation – Educational Psychology – Theories and laws learning and teaching, personality, Intelligence, Individual, Motivation, Group Dynamics
- Framing philosophy, aims and objectives of an educational Institution
- Lesson Planning
- Micro Teaching – 2
- Conduct Practice teaching using different teaching strategies – 10 (Classroom-5 Demonstration)
- Construct a written objective type test for the lessons taken.
- Construct tests, administer and determine reliability and validity.
- Preparation and utilization of instructional aids using different media.
- Design a curriculum for a basic B.Sc Nursing Programme; Develop course plan, units plan, rotation plans, prepare cumulative records for students.
- Prepare rotation plan for clinical practice.
- Planning and organizing field visits.
- Plan, conduct and evaluate a continuing nursing education workshop.
- Annotated bibliography 10
- Critical evaluation of any nursing education program offered by selected institution.
- Educational visit – educational institutions – GNM, B.Sc., Diploma Course etc.
- Field Visits (INC/SNC) to get familiar with recognition/ registration process.
- Construct, administrator and evaluate tools (objective & essay type test, observation checklist, rating scale etc)
- Observe and practice application of various non-standardized tests (intelligence, aptitude, personality, Sociometry, physical and mental disabilities tests)
- Prepare aptitude test for entrance exams of B.Sc. nursing students.
- Prepare plan for evaluation of the students in the B.Sc. nursing programme.
- Visit to schools

METHODS OF TEACHING

- Lecture cum discussion
- Seminar / Presentation
- Project work
- Field Visits
- Workshop

METHODS OF EVALUATION

- Written Tests
- Classroom / Clinical teaching
- Presentation
- Written Assignments
- Project Work

EDUCATIONAL VISITS-

- Visit to the School
- Gifted children
- Slow Learner
- Mentally challenged
- Deaf & Dumb and visually handicapped
- IEC bureau
- State Nursing Council/
School of Nursing of
Nursing

MGM INSTITUTE OF HEALTH SCIENCES, KAMOTHE, NAVI MUMBAI

NURSING RESEARCH AND STATISTICS

Placement: - First year

**Hours of Instruction: - Theory:-150 Hrs
Practical: -100 Hrs
Total: - 240 Hrs**

Part A - Nursing Research

**Theory: - 100 Hrs
Practical:- 50 Hrs
Total:- 150 Hrs**

COURSE DESCRIPTION

This course is designed to assist students to acquire an understanding of the research methodology and statistical methods as a basis for identifying research problem, planning and implementing a research plan. It will further enable the students to evaluate research studies and utilize research finding to improve quality of nursing practice, education and management.

General Objectives:

At the end of course, the students will be able to :

1. Define basic research terms and concept.
2. Review literature utilizing various sources
3. Describe research methodology
4. Develop a research study
5. Communicate research findings
6. Utilize research findings
7. Critically evaluate nursing research studies.
8. Write scientific paper for publication

**MGM INSTITUTE OF HEALTH SCIENCES,

Unit	Hours		Course Content
	Theory	Practicals	
X	10		Reporting and utilizing research <ul style="list-style-type: none">• Communication of research results; oral and written• Writing research report purposes, methods and style- Vancouver, American Psychological Association(APA),Campbell etc• Writing scientific articles for publication: layout of report and significance of report writing
XI	3	8	Critical analysis of research reports and articles
XII	4	7	Development and presenting a research proposal

ACTIVITIES:-

- Annotated Bibliography of research and articles.
- Review of literature of selected topics and reporting
- Formulation of problem statement, objective and hypothesis
- Developing theoretical/conceptual framework.
- Conducting validity and reliability tool
- Preparation of sample research tool
- Conducting validly and reliability of research tool
- Analysis and interpretation of given data
- Developing and presenting research proposal
- Journal club presentation
- Critical evaluation for selected research studies.
- Written a scientific paper

METHODS OF TEACHING

- Lecture cum discussion
- Presentations
- Project
- Classroom exercises
- Journal Club

METHODS OF EVALUATION

- Tests (term)
- Assignments
- Research Critiques
- Presentations – Presentation of related researches
- Project Work

(Deemed to be University)
Grade 'A' Accredited by NAAC

Part B – Statistics

Hours of Instruction

Theory : 50 Hrs

Practical : 50 Hrs

Total :100 Hrs

COURSE DESCRIPTION

At the end of the course, the students will be able to develop an understanding of the statistical methods and apply them in conducting research studies in nursing.

General Objectives:

At the end of course, the students will be able to :

1. Explain the basic concepts related to statics.
2. Describe the scope of statistics in health and nursing
3. Organize tabulate and present data meaningfully.
4. Use descriptive and inferential statics to predict results.
5. Draw conclusions of the study and predict statistical significance of the results.
6. Describe vital health of the study and predict statistical significance of the results.
7. Use of statistical packages for data analysis.

CONTENT OUTLINE

Unit	Hours		Course Content
	Theory	Practicals	
I	7	4	Introduction: <ul style="list-style-type: none">• Concepts, types, significance and scope of statistics,• meaning of data, Type of data• sample, parameter• type and levels of data and their measurement• Organization and presentation of data – Tabulation of data;• Frequency distribution, relative frequency• Graphical and tabular presentations: bar charts, histograms, frequency polygons, one way scatter plots, box plots, two way scatter plots, line graphs.

**MGM INSTITUTE OF HEALTH SCIENCES,
KAMOTHE, NAVI MUMBAI**

(Deemed to be University)

Grade 'A' Accredited by NAAC

Unit	Hours		Course Content
	Theory	Practicals	
III	4	5	Measures of variability; <ul style="list-style-type: none"> • Range, Percentiles, average deviation, quartile deviation, standard deviation Percentile & percentile rank, Cumulative graph, curved ogive
IV	5	4	Normal Distribution: <ul style="list-style-type: none"> • Probability, characteristics and application of normal • Probability curve; sampling error. • Cumulative distribution, Cumulative graph,
V	6	8	Measures of relationship: <ul style="list-style-type: none"> • Correlation – need and meaning • Rank order correlation; • Scatter diagram method • Product moment correlation • Simple linear regression analysis and prediction.
VI	3	2	Designs and meaning: <ul style="list-style-type: none"> • Experimental designs • Comparison in pairs, randomized block design, Latin Squares.
VII	8	8	Significance of Statistic and Significance of difference between two Statistics (Testing hypothesis) <ul style="list-style-type: none"> • Non parametric test or distribution free test – Wilcoxon signed rank test, Mann Whitney U test, Kruskal walli's test, Friedman's test and spearman correlation test. • Chi-square test, Sign, median test, • Parametric test – 't' test, • Analysis of variance: one way ANOVA, two way ANOVA, ANOVA in Latin square two way design MANOVA, ANCOVA • Analysis of covariance: ANOCOVA, ANOCOVA Technique
VIII	5	5	Use of statistical methods in psychology and education: <ul style="list-style-type: none"> • Scaling – Z Score, Z Scaling • Standard Score and T Score • Reliability of test Scores: test-retest method, parallel forms, split half method.
IX	4	2	Application of statistics in health: <ul style="list-style-type: none"> • Measurement of population: rate, crude rate, specific rate. • Measurement of fertility: specific fertility rate, total fertility rate. • Reproductive rate: gross reproduction rate, net reproduction rate. • Measures related to mortality: crude death rate (CDR), age specific death rate, infant and child mortality rate. • Measures related to morbidity.

**MGM INSTITUTE OF HEALTH SCIENCES,
KAMOTHE, NAVI MUMBAI**

(Deemed to be University)

Grade 'A' Accredited by NAAC

Unit	Hours		Course Content
	Theory	Practicals	
IX	4	2	Application of statistics in health: <ul style="list-style-type: none"> • Measurement of population: rate, crude rate, specific rate. • Measurement of fertility: specific fertility rate, total fertility rate. • Reproductive rate: gross reproduction rate, net reproduction rate. • Measures related to mortality: crude death rate (CDR), age specific death rate, infant and child mortality rate. • Measures related to morbidity.
X	4	8	Use of Computers for data analysis <ul style="list-style-type: none"> • Use of computer in data analysis and research, use of software and introduction to SPSS. • Importing data from excel, access, tab and comma separated files. • Entering data, labeling a variable, coding and recording a categorical and continuous variable, converting a data from string to numerical variable, sorting, filtering, merging, appending data set. • Frequencies, descriptive statistics, cross tabulation. • diagrammatic presentation including Histogram, bar chart, pie chart, scatter diagram, box plot, line chart. • Parametric test of hypothesis- one sample, independent and paired sample t- test, one way ANOVA & post HOC Test. • Testing for normality, chi- square test with measures of association, Pearson correlation. • Non parametric tests.

ACTIVITIES:-

- Annotated Bibliography of research and articles.
- Review of literature of selected topics and reporting
- Formulation of problem statement, objective and hypothesis
- Developing theoretical/conceptual framework.
- Conducting validity and reliability tool
- Preparation of sample research tool
- Conducting validity and reliability of research tool

METHODS OF TEACHING

- Lecture cum discussion
- Demonstration – on data organization, tabulation, calculation of statistic, use of statistical package, classroom exercise, organization and tabulation of data
- Computing Descriptive and inferential statistics; vital and health statistics and use of computer for data entry and analysis using statistical package.

METHODS OF EVALUATION

- Tests (term), Classroom Statistical exercises.

NURSING RESEARCH AND STATISTICS

PRACTICAL EXPERIENCE GUIDELINE FOR NURSING RESEARCH:“PROJECT”

Guideline for research project

I Aim: Students will identify the role of nurse in conducting research, writing proposal based on scientific steps and will analyze the data using statistical methods while conducting research project.

II Objectives

- To identify research problem areas
- To get an opportunity to select topic or problem and to formulate research proposal.
- To follow the steps in plan specific design in nursing research proposal and conducting project.
- To differentiate and plan specific design in nursing research i.e. experimental and non-experimental including methodology.
- To get an opportunity to frame/construct simple tool or questionnaire to collect data.
- To follow the basic principles of data analysis including simple tables and statistical methods for proceedings and interpretation of data.
- To be familiar to write research report to communicate the findings including bibliography, and future recommendations.
- To present nursing research report as group activity.
- To present nursing research proposal as individual activity.
- Learns to use computers.
- Recognize role of Research in quality nursing care.

III Guide line/Check list to prepare/Nursing research proposal & project

- 1) *Selection of research problem:* Select your interested area of research based on flat need, issues and social concern in nursing field.
 - a) State the problem – brief concise, clear.
 - b) State the purpose of selected study & topic
 - c) State objective of study/proposal/project.
 - d) State the hypothesis if necessary (Optional)
 - e) Prepare conceptual framework based on operational definition (Optional).
 - f) Write scope and delimitation of Research Proposal.

**MGM INSTITUTE OF HEALTH SCIENCES,
KAMOTHE, NAVI MUMBAI**

(Deemed to be University)

Grade 'A' Accredited by NAAC

2) *Organizing for review of literature*

AIM a) It ass in to needs to conduct Research project

b) To Study related and relevant literature which help to decide conceptual framework and research design to be selected for your study.

c) To add specific books, bulletins, periodicals, reports, published dissertations, Encyclopedia, text books.

d) Organize literature as per operational definition.

e) To prepare summary table for review of literature.(Optional)

3) *Research Methodology*: To determine logical structure & methodology for research project

a) Decide and state approach of study i.e. experimental or non-experimental.

b) To define / find out variables to observe effects on decided items & procedure (Optional).

c) To prepare simple tool or questionnaire or observational check lost to collect data.

d) To determine sample and sampling method.

i) Mode of selection ii) Criteria iii) Size of sample iv) Plan When, Where and how data will be collected

e) To teat validity of constructed tool with experts/teachers opinion.

f) To check reliability by implementing tool before pilot study (10% of sample Size)

g) To conduct pilot study by using constructed tool for 10% selected sample size.

4) *Data Collection*: To implement prepared tool & to implement constructed tool

a) Decide location

b) Time

c) Write additional information in separate excise book to support inferences and Interpretation.

5) *Data analysis and processing presentation*

a) Use appropriate method of statistical analysis i.e. frequency and percentage.

b) Use clear frequency tables, appropriate tables, graphs, and figures.

c) Interpretation of data:

i) In relation to objectives

ii) Hypothesis (Optional)

iii) Variable of study or project (Optional)

iv) Writing concise report

**MGM INSTITUTE OF HEALTH SCIENCES,
KAMOTHE, NAVI MUMBAI**

(Deemed to be University)

Grade 'A' Accredited by NAAC

6) Writing Research Report

a) Aims:

- i) To organized materials to write project report
- ii) To make comprehensive full factual information
- iii) To use appropriate languages and style of writing
- iv) To make authorities documentation by checking, references & bibliography.
- v) To use computers.

b) Points to remember

- a) Develop thinking to write research report.
- b) Divide narration of nursing research report.
- c) Use present tense and active voice
- d) Minimize use of technical languages
- e) Use simple, straight forward, clear, concise languages
- f) Use visual aids in front of able, graph and figures
- g) Treat data confidentially
- h) Review, rewrite if necessary

**MGM INSTITUTE OF HEALTH SCIENCES,
KAMOTHE, NAVI MUMBAI**

(Deemed to be University)

Grade 'A' Accredited by NAAC

EVALUATION CRITERIA FOR PROJECT REPORT / DISSERTATION

Sr.No.	Criteria	Rating				
		1	2	3	4	5
I	Statement of the problem 1. Significance of the problem selected 2. Framing of tile and objectives					
II	Literature Review 3. Inclusion of related studies on the topic, and its relevance					
III	4. Operational definition Research Design 5. Use of appropriate research design 6. Usefulness of the research design to draw the inferences among study variables / conclusion					
IV	Sampling design 7. Identification and description of the target population 8. Specification of the inclusion and exclusion criteria 9. Adequate sample size justifying the study design to draw conclusions.					
V	Data Collection Procedure 10. Preparation of appropriate tool 11. Pilot study including validity and reliability of tool 12. Use of appropriate procedure / method for data collection					
VI	13. Clear and logical organization of the findings Analysis of dates & interpretation 14. Clear presentation of the tables (title, table & column heading)					
VII	15. Selection of appropriate statistical tests Ethical Aspects 16. Use of appropriate consent process 17. Use appropriate steps to maintain ethical aspects and principles (Physical harm etc.)					
VIII	Interpretation of the findings 18. Consistent and appropriate discussion of the findings					
IX	Conclusion 19. Summary and recommendations for to nursing Practice/Education / Administration					
X	Presentation / Report Writing 20. Organization of the project work including languages and style of presentation.					
	Maximum Marks					
	Marks Obtained					

Remarks by the Supervisor / Guide

FIRST YEAR M.Sc. NURSING

NURSING EDUCATION AND STATISTICS

GUIDELINES TO CRITIQUE RESEARCH STUDY

1. TITLE

- A good title suggesting key variants and the study population.

2. ABSTRACT

- Clear and consider summarizing the main features of the report (problem, methods, results and conclusion)

3. INTRODUCTION

➤ **Statement of the problem**

- The problem stated is unambiguous and easy to identify
- The problem has significance for nursing
- There is a good match between the research problem and the paradigm and methods used, An appropriate quantitative approach

➤ **Hypotheses or research questions**

- Research questions and / or hypotheses are explicitly stated, if not their absence should be justified
- Questions and hypotheses are appropriately worded, with clear specification of key variables and the study population
- The questions and hypotheses are consistent with the literature review and the conceptual framework.

➤ **Literature review**

- The literature review is up to date and based mainly on primary sources.
 - The reviews provides the state of the art synthesis of evidence on the research problem
 - The Literature review provided a solid basis for the new study
- **Conceptual / theoretical framework**
- Key concepts are adequately defined conceptually
 - There is a conceptual theoretical frame work, rationale and / or map, and it is appropriate

4. METHOD

➤ **Protection of participant's rights**

- Appropriate procedures are used to safeguard the rights of the study participants and the study subject to external review.
- The study is designed to minimize the risks and minimize benefits to the participants

➤ **Research design**

- The most rigorous possible design to be used, given the purpose of the research
- Appropriate comparison are made to enhance
- internal and external validity of the study e.g.(is blinding used, is attrition minimized)

➤ **Population and sample**

- The Population is identified and described and the sample is described in sufficient details
- The best possible sampling design is used to enhance the sample's representativeness and the sample biases are minimized
- The sample size is adequate and a power analysis is used to estimate the sample size needs

MGM INSTITUTE OF HEALTH SCIENCES, KAMOTHE, NAVI MUMBAI

(Deemed to be University)

Grade 'A' Accredited by NAAC

➤ **Data Collection and measurement**

- The operational and conceptual definitions are congruent
- Key variables are operationalized using the best possible method e.g.(interviews, observations) with adequate justification
- The specific instruments are adequately described and they are good choices given the study purpose and study population
- The report provides evidence that the data collection methods yield data that high on reliability and validity

➤ **Procedures**

- The intervention if present is adequately described and is properly implemented. The participates allocated to the group actually receive the intervention
- The data is collected in a manner that is minimizes bias. The staff who collects the data is well trained

5. RESULTS

Data Analysis

- Analysis is undertaken to address each research question or test each hypothesis
- Appropriate statistical methods is used, given the level of the measurements of the variable, number of group being compared and so on.
- Type I and Type II errors are avoided or minimized

➤ **Findings**

- The findings are adequately summarized with good use of tables and figures.
- Findings are reported in a manner that facilities a meta analysis, and with sufficient information needed for evidence based practice

6. Discussion

➤ **Interpretation of the findings**

- All major findings are interpreted and discussed within the prior research and or the study's conceptual framework
- The interpretations are consistent with the results and with study's limitations
- The report address the issue of genralizability of the findings

7. Global Issues

➤ **Presentation**

- The report is well written, well organized and sufficiently detailed for critical analysis
- The report is written in a manner that makes the findings accessible to practicing nurses

➤ **Researcher credibility**

- The researchers clinical, substantive, or methodological qualifications and experience enhance confidence in their findings and their interpretation

➤ **Summery assessment**

- The study findings appear to be valid, despite any identified limitations. There is confidence in the truth value of the results
- The study contributes meaningful evidence that can be used in nursing practice or that is useful to the nursing discipline.

CLINICAL SPECIALITY – I MEDICAL SURGICAL NURSING

Placement: 1st Year

Hours of instruction

Theory : -150 Hours

Practical :- 650 Hours

Total :- 800 Hours

Course Description

This course is common for the students undergoing clinical specialty-II in neuro science nursing/cardiovascular & thoracic nursing/critical care nursing/oncology nursing/orthopedic and rehabilitation nursing/nephro & urology nursing, gastroenterology nursing/ geriatric nursing.

It is designed to assist students in developing expertise and in depth knowledge in the field of medical Surgical Nursing. It will help students to appreciate the patient as a holistic individual and develop skill to function as a specialized Medical-Surgical Nurse. It will further enable the student to function as educator, manager and researcher in the field of Medical – Surgical Nursing.

Objectives

At the end of the course the students will be able to:

1. Appreciate the trends & issues in the field of Medical – Surgical Nursing as a specialty.
2. Apply concepts & theories related to health promotion.
3. Appreciate the client as a holistic individual.
4. Perform physical, psychosocial assessment of Medical – Surgical patients.
5. Apply Nursing process in providing care to patients.
6. Integrate the concept of family centered nursing care with associated disorder such as genetic, congenital and long-term illness.
7. Recognize and manage emergencies with Medical- Surgical patients.
8. Describe various recent technologies & treatment modalities in the management of critically ill patients.
9. Appreciate the legal & ethical issues relevant to Medical – Surgical Nursing.
10. Prepare a design for layout and management of Medical – Surgical Units.
11. Appreciate the role of alternative systems of Medicine in care of patients.
12. Incorporate evidence based Nursing practice and identify the areas of research in the field of Medical – Surgical Nursing.
13. Recognize the role of Nurse practitioner as a member of the Medical – Surgical health team.
14. Teach Medical – Surgical nursing to undergraduate nursing students & in-service nurses.

PROFORMA & GUIDELINES FOR CASE PRESENTATION

I Patent Biodata

Name, Age, Sex Religion, Marital status, Occupation, Source of health care, Date of admission, Provisional Diagnosis, Date of surgery if any.

II Presenting complaints

Describe the complaints with which the patient has been brought to the hospital

III Socio-economic status of the family:

Monthly income, expenditure on health, food, education etc.

IV History of Illness (Medical & Surgical)

- i) History of present illness – onset, symptoms, duration, precipitating/ aggravating factors
- ii) History of past illness surgery, allergies, medications etc.
- iii) Family history – Family tree, history of illness in the family members, risk factors congenital problem, psychological problem etc.

V Diagnosis (Provisional & Confirmed)

Description of disease: Includes the followings

1. Definition
2. Etiology & risk factors
3. Pathophysiology
4. Clinical features.

VI Physical Examination of Patient (Date & Time)

Physical examination: with date and time.

Clinical features present in the book Present in the Patient

VII Investigations

Date	Investigation done	Results	Normal Value	Interfaces

CLINICAL SPECIALITY-I

OBSTETRIC AND GYNECOLOGICAL NURSING

Placement: 1st year

Hours of Instruction

Theory :- 150 Hours.

Practical :- 650 Hours.

Total :- 800 Hours.

Course Description

This course is designed to assist students in developing expertise and in-depth understanding in the field of Obstetric and Gynecological Nursing. It will help students to appreciate the client as a holistic individual and develop skill to function as an independent midwifery practitioner. It will further enable the student to function as educator, manager, and researcher in the field of Obstetric and Gynecological nursing

Objectives

At the end of the course the students will be able to:

1. Appreciate the trends in the field of midwifery, obstetrics and gynecology as a speciality.
2. Describe the population dynamics and indicators of maternal and child health
3. Describe the concepts of biophysical, psychological and spiritual aspects of normal pregnancy, labor and puerperium.
4. Provide comprehensive nursing care to women during reproductive period and newborns.
5. Integrate the concepts of family centered nursing care and nursing process approach in obstetric and gynecological nursing.
6. Identify and analyze the deviations from normal birth process and refer appropriately.
7. Describe the pharmacological agents, their effects during pregnancy, child birth, puerperium, lactation and the role of nurse
8. Counsel adolescents, women and families on issues pertaining to pregnancy, child birth and lactation
9. Describe the role of various types of complementary and alternative therapies in obstetric and gynecological nursing.
10. Incorporate evidence based nursing practice and identify the areas of research in the field of obstetric and gynecological nursing.
11. Describe the recent advancement in contraceptive technology and birth control measures
12. Appreciate the legal and ethical issues pertaining to obstetric and gynecological nursing

**MGM INSTITUTE OF HEALTH SCIENCES,
KAMOTHE, NAVI MUMBAI**

(Deemed to be University)

Grade 'A' Accredited by NAAC

UNIT	HOURS	COURSE CONTENT
I	10	<p>Introduction</p> <ul style="list-style-type: none"> • Historical and contemporary perspectives • Epidemiological aspects of maternal and child health • Magnitude of maternal and child health problems • Issues of maternal and child health : Age, Gender, Sexuality, • psycho Socio cultural factors • Preventive obstetrics • National health and family welfare programmes related to maternal and child health: health care delivery system- • National Rural health mission, Role of NGO's • Theories, models and approaches applied to midwifery practice • Role and scope of midwifery practice: Independent Nurse midwifery practitioner • Legal and Ethical issues: Code of ethics and standards of midwifery practice, standing orders Evidence based midwifery practice • Research priorities in obstetric and gynecological nursing.
II	15	<p>Human reproduction</p> <ul style="list-style-type: none"> • Review of anatomy and • physiology of human reproductive system: male and female • Hormonal cycles • Embryology • Genetics, teratology and counseling • Clinical implications
III	25	<p>Pregnancy</p> <ul style="list-style-type: none"> • Maternal adaptation : Physiological, psychosocial • Assessment – Maternal and foetal measures Maternal measures: History taking, examination-General, physical and obstetrical measure, identification of high risk, foetal measure, identification of high risk, Foetal measures – clinical parameters, biochemical-human estriol, Maternal Serrum Alfa Feto Protein, Acetylcholine esterase (AchE), Triple Test Amniocentesis, Cordocentesis, chorionic villus sampling (CVS), Biophysical- (US IMAGING, Foetal movement count, Ultra Sonography, Cardiotocography, cardiotomography, Non Stress Test(NST), Contraction stress test(CST), amnioscopy, foetoscopy, • Radiological examination. Interpretation of diagnostic tests and nursing implications • Nursing management of the pregnant women, minor disorders of pregnancy and management, preparation for child birth and parenthood, importance of institutional delivery, choice of birth setting, importance and mobilizing of transportation, prenatal counseling, role of nurse and crisis intervention, identification of high risk pregnancy and refer • Alternative/complementary therapies Interpretation of diagnostic tests and nursing implications Nursing management of the pregnant women, minor disorders of pregnancy and management, preparation for child birth and parenthood, importance of institutional delivery, choice of birth setting,

PRACTICAL

Total Hours prescribed = 650 Hours

1 week = 30 Hours

Sr.No.	Dept./Unit	No. of Week	Total Hours
1	Anetenatal Wards & OPDs	4	120
2	Labour Room	5	150
3	Postnatal Ward	2	60
4	Family Planning Clinics	2	50
5	PHC/Rural maternity settings	4	120
6	Gynae	2	60
7	Maternity OT	2	60
8	NICU	1	30
	Total	22 Weeks	650

Procedures observed

- Diagnostic investigations : amniocentesis, chorocentesis, chorionic villi sampling
- Infertility management: artificial reproduction : artificial insemination, invitro fertilization, and related procedures

Procedures assisted

- Medical termination of pregnancy,

Procedures performed

- Antenatal assessment-20
- Postnatal assessment-20
- Assessment during labour : use of partograph - 20
- Per vaginal examination-20
- Conduct of normal delivery-20
- Episiotomy and suturing-10
- Setting up of delivery areas
- Insertion of intra uterine devices(copper T)

Others

- Identification of high risk women and referral
- Health education: to women and their families
- Motivation of couples for planned parenthood

MGM INSTITUTE OF HEALTH SCIENCES, KAMOTHE, NAVI MUMBAI

(Deemed to be University)

Grade 'A' Accredited by NAAC

Procedure to be performed

- Health education, counseling and mother craft classes
- Antenatal immunization
- Assessment of intra uterine fetal well-being
- Universal precautions-effectively infection control methods
- Vaginal examination and interpretation (early pregnancy, labour, post partum)
- Utilization of partograph, cervicograph
- Conduction of safe delivery
- Episiotomies suturing
- Manual removal of placenta, placental examination
- Postnatal removal of placenta, placental examination
- Management of breast engorgement, While leg
- Postnatal counseling
- Breast care, breast exam and drainage breast abscess
- Postnatal exercise
- Newborn assessment – Ruling out congenital anomalies
- Neonatal resuscitation
- Apgar score
- Monitoring neonates Clinically refill time, Assessment of jaundice
- Gastric Lavage
- Gastric gavage
- Care of child in multi channel monitor and ventilator
- Care of child in radiant, warmer and incubator
- Kangaroo care
- Anthropometrics measurement
- Neonatal reflexes
- Breast feeding
- Parental Nutrition & fluid balance / infusion pump
- Feeding technique
- Medication-Oral, I.D.I.M.I.V.
- Capillary blood sample collection
- Oxygen therapy
- Phototherapy
- Chest physiotherapy

Methods of Teaching

- Lecture cum discussion
- Demonstration
- Seminar / Presentation
- Project Work
- Field Visits

Methods of evaluation

- Written Tests
- Class room / Clinical Teaching
- Presentation
- Written assignment

CLINICAL SPECIALTY –I

CHILD HEALTH (PAEDIATRIC) NURSING

Placement : Ist Year

Hours of Instruction

Theory :- 150 Hours

Practical :-650 Hours

Total :- 800 Hours

Course Description

This course is designed to assist students in developing expertise and in-depth understanding in the field of Pediatric Nursing. It will help students to appreciate the child as a holistic individual and develop skill to function as neonatal and pediatric nurse specialist. It will further enable the student to function as educator, manager, and researcher in the field of Paediatric nursing.

Objectives

At the end of the course the students will be able to:

1. Appreciate the history and developments in the field of pediatrics and pediatric nursing as a specialty
2. Apply the concepts of growth and development in providing care to the pediatric clients and their families.
3. Appreciate the child as a holistic individual
4. Perform physical, developmental, and nutritional assessment of pediatric clients
5. Apply nursing process in providing nursing care to neonates & children
6. Integrate the concept of family centered pediatric nursing care with related areas such as genetic disorders, congenital malformations and long term illness.
7. Recognize and manage emergencies in neonates
8. Describe various recent technologies and treatment modalities in the management of high risk neonates
9. Appreciate the legal and ethical issues pertaining to pediatric and neonatal nursing
10. Prepare a design for layout and management of neonatal units
11. Incorporate evidence based nursing practice and identify the areas of research in the field of pediatric/neonatal nursing
12. Recognize the role of pediatric nurse practitioner and as a member of the pediatric and neonatal health team
13. Teach pediatric nursing to undergraduate students & in-service nurses

PERFORMA & GUIDELINES FOR EXAMINATION AND ASSESSMENT OF NEW BORN

I] Biodata of Baby & Mother

05 Marks

Name of the baby (if any):	Age:
Birth weight:	Present weight:
Mother's Name:	Period of gestation:
Date of Delivery:	
Identification band applied:	
Type of delivery: Normal / Instrumental / Operation	
Place of delivery: Hospital / Home	
Any problems during birth: Yes / No	
If Yes explain:	
Antenatal history:	
Mother's age:	Height:
Nutritional status of mother:	Weight:
Socio-economic background:	

II] Examination of the baby:

Characteristics in the baby Comparison with the normal

1. Weight
2. Length
3. Head circumference
4. Chest circumference
5. Mid-arm circumference
6. Temperature
7. Heart Rate
8. Respiration

III] General behavior and observations

05 Marks

1. Color :
 2. Skin/Lanugo:
 3. Vernix Caseosa:
 4. Jaundice:
 5. Cyanosis:
 6. Rashes:
 7. Mongolian spot:
 8. Birth marks:
 9. Head:
 - Anterior fontanel :
 - Posterior Fontanel:
 - Any cephalhematoma / caput succedaneum
 - Forceps marks (if any)
 - Eyes : Face:
- Cleft lip / palate

IV] Social, Emotional & Languages Development:	02 Marks
Social & emotional development In Child Comparison with the normal	
Responds to closeness when held	
Smiles in recognition	
Recognize mother	
Seated before a mirror, regards image	
Discriminates strangers	
Wants more than one to play	
Say Mamma, Papa	
Responds to name, no or give it to me	
Increasingly demanding	
Offers cheek to be kissed	
Can speak single word	
Use pronouns like I, Me, You	
Asks for food, drinks, toilet,	
Plays with doll	
Gives full name	
Can help put things away	
Understands difference between boy & girl	
Washes hands	
Feeds himself/herself	
Repeats with number	
Understands under, behind, inside, outside	
Dresses and undresses	
V] Play habits	02 Marks
Child's favorite toy and play:	
Does he play alone or with other children?	
VI] Toilet training	02 Marks
Is the child trained for bowel movement & if yes, at what age:	
Has the child attained bladder control & if yes, at what age:	
Does the child use the toilet?	
VII] Nutrition	02 Marks
○ Breast feeding (As relevant to age)	
○ Weaning has weaning started for the child: Yes/ No If yes, at what age & specify the weaning diet.	
Any problems observed during weaning:	
Meal pattern at home	02 Marks
Sample of a day's meal: Daily requirements of Chief nutrients:	
Breakfast: Lunch: Dinner: Snacks:	
VIII] Immunization status & schedule of completion of immunization.	02 Marks
IX] Schooling	02 Marks
Does the child attend school?	
If Yes, Which grade and report of school performance:	

**MGM INSTITUTE OF HEALTH SCIENCES,
KAMOTHE, NAVI MUMBAI**

(Deemed to be University)

Grade 'A' Accredited by NAAC

XI] Parent child relationship	01 Marks
How much time do the parents spend with the child? Observation of parent-child interaction:	
XII] Explain parental reaction to illness and hospitalization.	01 Marks
XIII] Child's reaction to the illness & hospital team	
XIV] Identification of needs on priority	
XV] Conclusion	01 Marks
XVI] Bibliography	01 Marks

PERFORMA & GUIDELINES FOR CASE STUDY

I] Patient's Biodata

Name, Age, Sex, Religion, Marital Status, Occupation, Source of Health Care, Date of Admission, Provisional Diagnosis, Date of Surgery if any.

II] Presenting complaints

Describe the complaints with which the child has been admitted to the ward.

III] Child's Personal data:

- Obstetrical history of mother
- Prenatal & natal history
- Growth & Development (Compare with normal)
- Immunization status
- Dietary pattern including weaning
- Nutritional status
- Play habits
- Toilet training habits
- Sleep pattern
- Schooling

IV] Socio-economic status of family:

Monthly income, expenditure on health, food education

V] History of Illness

1. History of present illness – onset, symptoms, during, precipitating/ aggregating factors
2. History of past illness – Illness, hospitalizations, surgeries allergies.
3. Family History – Family tree, family history of illness, risk factors, congenital problem, psychological problem.

VI] Diagnosis:- Provisional & confirm.

VII] Description of disease: Included the following:

1. Definition
2. Related anatomy and physiology
3. Etiology & risk factor
4. Path physiology
5. Clinical features

VIII] Physical Examination of patient

Clinical features present in the book present in the patient

IX] Investigations:-

Placement: 1st Year

Hours of Instructions: Theory: - 150 hours

Practical:- 650 hours

Total:- 800 hours

Course Description

The course is designed to assist students in developing expertise and in-depth understanding in the field of Community Health Nursing. It would help students to appreciate holistic life style of individuals, families & groups and develop skills to function as Community Health Nurse specialist/practitioner. It would further enable student to function as an educator, manager and researcher in the field of Community Health nursing.

Objectives

At the end of the course, the student will be able to:

1. Appreciate the history and development in the field of Community Health and Community Health Nursing.
2. Appreciate role of individuals and families in promoting health of the Community.
3. Perform physical, developmental and nutritional assessment of individuals, families and groups.
4. Apply the concepts of promotive, preventive, curative and rehabilitative aspects of health while providing care to the people.
5. Apply nursing process approach while providing care to individuals, families, groups and community.
6. Integrate the concepts of family centered nursing approach while providing care to the community.
7. Recognize and participate in the management of emergencies, epidemics and disasters.
8. Apply recent technologies and care modalities while delivering community health nursing care.
9. Appreciate legal and ethical issues pertaining to community health nursing care.
10. Conduct community health nursing care projects.
11. Participate in planning, implementation and evaluation of various national health and family welfare programmes at local, state and the national level.
12. Incorporate evidence based nursing practice and identify the areas of research in the community settings.
13. Participate effectively as a member of Community Health team.
14. Coordinate and collaborate with various agencies operating in the community by using inter-sectoral approach.
15. Teach community health nursing to undergraduates, in-service nurses and the community health workers.
16. Demonstrate leadership and managerial abilities in community health nursing practice

PSYCHIATRIC NURSING HISTORY COLLECTIVE FORMAT

I Demographic data:

- Name
- Age
- Sex
- Marital Status
- Religion
- Occupation
- Socio-economic status
- Address
- Informant
- Information (Relevant or not) adequate or not

II Chief Complaints / Presenting complaints (List with duration)

- In patients own words and in informants own words.
E.g.:- Sleeplessness x 3 weeks
- Loss of appetite & hearing voices x 2 weeks
- Talking to self

III Present psychiatric history/nature of the current episode

- Onset – Acute (Within a few hours)
- Sub acute (Within a few days)
- Gradual (Within a few weeks)
- Duration – Days, weeks or months
- Course – Continuous/ episodic
- Intensity/ same / increasing or decreasing
- Precipitating factors – Yes / No (If yes explain)
- History of current episode (explain in details regarding the presenting complaints)
- Associated disturbances – included present medical problems (E.G. Disturbance in sleep, appetite, IPR & Social functioning, occupation etc).

IV Past Psychiatric history:

- Number of episode with onset and course
- Complete or incomplete remission
- Duration of each episode
- Treatment details and its side effects if any
- Details if any precipitating factors if present

**MGM INSTITUTE OF HEALTH SCIENCES,
KAMOTHE, NAVI MUMBAI**

(Deemed to be University)

Grade 'A' Accredited by NAAC

- V a) Past Medical History**
b) Past Surgical History
c) Obstetrical History (Female)

VI Family History :-

- Family Genogram – 5 Generations include only grandparents. But if there is a family history Include the particular generation

VII Personal History:-

- Pre-natal history – Maternal infections
- Exposure to radiation etc.
- Check ups
- Any complications
- Natal history – Type of delivery
- Any complications
- Breath and cried at birth
- Neonatal infections
- Mile stones : Normal or delayed Behaviour during childhood
- Excessive temper tantrums
- Feeding habit
- Neurotic symptoms
- Pica
- Habit disorders
- Excretory disorders etc.

Illness during childhood

- Look specifically for CNS infections
- Epilepsy
- Neurotic disorders
- Malnutrition

Schooling

- Age of going school
- Performance in the school
- Relationship with peers
- Relationship with teachers (Specifically look for learning disability and attention deficit)
- Look for conduct disorders E.G. Truancy, Stealing

VIII Occupational history

- Age of Joining job
- Relationship with superiors, subordinates & colleagues
- Any Change in the job – if any give details
- Reasons for changing jobs
- Frequent absenteeism

**MGM INSTITUTE OF HEALTH SCIENCES,
KAMOTHE, NAVI MUMBAI**

(Deemed to be University)

Grade 'A' Accredited by NAAC

IX Sexual history

- Age of attaining puberty (female – menstrual cycles are regular)
- Source and extent of knowledge about sex, any exposures
- **Marital Status:** with genogram.

X Pre morbid personality: (Personality of a patient consists of those habitual attitudes and patterns of behavior which characterize an individual. Personality sometimes changes after the onset of an illness. Get a description of the personality before the onset of the illness. Aim to build up a picture of the individual, not type, enquiry with respect to the following areas.)

- 1. Attitude to others in social and sexual relationship:-** Ability to trust other, mark and sustain Relationship, anxious or secure, leader to follower, Participation, responsibility, capacity to make decision, dominant or submissive, friendly or emotionally cold, etc. Difficulty in role taking –gender, sexual, familial.
- 2. Aptitudes to self:-** Egocentric, Selfish, indulgent, dramatizing, critical, depreciatory, over concerned, self conscious, satisfaction or dissatisfaction with work. Attitudes towards Health and bodily functions. Attitude to past achievements and failure, and to the future.
- 3. Moral and religious attitude and standards:-** Evidence of rigidly or compliance, permissiveness or over conscientiousness, conformity, or rebellion. Enquiry specifically about religious beliefs. Excessive religiosity.
- 4. Mood:-** Enquiry about stability of mood, mood swings, whether anxious, irritable, worrying or tense. Whether lively or gloomy. Ability to express and control feelings of anger, anxiety, or depression.
- 5. Leisure activities and hobbies:-** Interest in reading, play, music, movies etc. Enquiry about creative ability. Whether leisure time is spend alone or with friends. Is the circle of friends large or small?
- 6. Fanstasy Life:-** Enquire about content of day dreams and dreams. Amount of time spent in day dreaming.
- 7. Reaction pattern to stress:-** Ability to tolerate frustrations, losses, disappointments, and circumstance arousing anger, anxiety or depression. Evidence for the excessive use of particular defense mechanisms such as denial, rationalization, projection etc.
- 8.Habits :-** Eating, Sleeping and excretory functions.

CLINICAL SPECIALITY – I MENTAL HEALTH NURSING

MENTAL STATUS EXAMINATION (MSE) FORMAT

I General appearance and behavior (GAAB):

- a) Facial expression (E.G. Anxiety, Pleasure, Confidence, Blunted, Pleasant)
- b) Posture (Stooped, stiff, guarded, normal)
- c) Mannerisms (Stereotype, negativism, tics, normal)
- d) Eye to eye contact (maintained or not)
- e) Rapport (Built easily or not built or built with difficulty)
- f) Consciousness (conscious or drowsy or unconscious)
- g) Behaviour (includes social behaviour, E.g. Overfriendly, disinherited, preoccupied, aggressive, normal)
- h) Dressing and grooming – well dressed/appropriate/inappropriate (to season and situation) neat and tidy/dirty.
- i) Physical features :- Look older/younger than his or her age/under weight/over weight/ physical deformity.

II Psychomotor Activity:-

Increase / decreased / Compulsive/echopraxia/ Stereotypy / irrelevant automatic obedience)

III Speech: One sample of speech (verbatim in 2 or 3 sentences)

- a) Coherence – coherent / incoherent
- b) Relevance (answer the questions appropriately) – relevant /irrelevant.
- c) Volume (Soft, loud or normal)
- d) Tone (high pitch, low pitch, or normal/monotonous)
- e) Manner – Excessive formal /relaxed/inappropriately familiar.
- f) Reaction time (time taken to answer the question)-increased, decreased or normal

IV Thought:

- a) Form of thought /formal thought disorder – not understandable / normal/ circumstantiality / tangentiality / neologism / word salad/ preservation / ambivalence).
- b) Stream of thought / flow of thought – pressure of speech / flight of ideas/ thought retardation/ mutism /aphonia / thought block / Clang Association.)
- c) Content of thought
 - i. Delusions – specify type and give example – Persecutory/ delusion of reference / delusions of influence or passivity/hypochondriacal delusions /delusions of grandeur / nihilistic- Deralization / depersonalization / delusions of infidelity.
 - ii. Obsession
 - iii. Phobia
 - iv. Preoccupation
 - v. Fantasy – Creative / Day dreaming

**MGM INSTITUTE OF HEALTH SCIENCES,
KAMOTHE, NAVI MUMBAI**

(Deemed to be University)

Grade 'A' Accredited by NAAC

V Mood (Subjective) and after (Objective) :

- a. Appropriate/inappropriate Relevance to situation and thought congruent.
- b. Pleasurable affects-Euphoria / Elation / Exaltation / Ecstasy
- c. Unpleasurable affects – Grief / mourning / depression.
- d. Other affects-Anxiety / fear / Panic/free floating anxiety/apathy/ aggressive / moods swing / emotional liability

VI Disorders Perception:

- a. Illusion
- b. Hallucinations – (Specify type and give example) – auditory / visual/ olfactory / gustatory /tactile
- c. Others – hypnologic / hypnopombic /Lilliputian / kinesthetic / macropsia / micropsia

VII Cognitive functions :

a) Attention and concentration:

- Method of testing (asking to list the months of the year forward and backward)
- Serial subtractions (100-7)

b) Memory:

- a) Immediate (Teach an address a& after 5 mts. Asking for recall)
- b) Recent Memory – 24 hrs recall
- c) Remote : Asking for dates of birth or event which are occurred long back
 - i) Amnesia / paramnesia / retrograde amnesia / anterograde amnesia
 - ii) Confabulation
 - iii) Déjà vu / Jamaes Vu
 - iv) Hypermnnesia

c) Orientation:

- a. Time approximately without looking at the watch, what time is it?
- b. Place – Where he / she is now?
- c. Person – who has accompanied him or her

d) Abstraction : Give a proverb and ask the inner meaning (E.g. feathers of a bird flock together / rolling stones gather no mass)

e) Intelligence & General Information : Test by carry over sums/ similarities and differences / and general information / digit score test.

f) Judgment : Personal (Future plans)

- Social (Perception of the society)
- Test (Present a situation and ask their response to the situation)

g) Insight:-

- a) Complete denial of illness
- b) Slight awareness of being sick
- c) Awareness of being sick attribute it to external/physical factor.
- d) Awareness of being sick, but due to something unknown in himself.
- e) Intellectual insight
- f) True emotional insight

**MGM INSTITUTE OF HEALTH SCIENCES,
KAMOTHE, NAVI MUMBAI**
(Deemed to be University)
Grade 'A' Accredited by NAAC

VIII General Observations :-

a) Sleep

- I. Insomnia – temporary / persistent
 - II. Hypersomnia – temporary / persistent
 - III. Non-organic – sleep – wake cycle disturbance
 - IV. EMA-Early Morning Awakening
- b) Episodic disturbances – Epilepsy / hysterical / impulsive behaviour/ aggressive behaviour /destructive behaviour

IX Summary & Clinical Diagnosis

CLINICAL SPECIALITY – I MENTAL HEALTH NURSING

PROCESS RECORDING FORMAT

I] BASE LINE DATA OF CLIENT

II] List of nursing problems identifies through history, MSE and systematic observation

III] List of objective of interactions based on the problem identified and learning need of

- a) Client b) Student

(Note: The above data are obtained and recorded on initial contact. Later as each day's interactions are planned, the following format has to be followed)

2. DATE AND TIME DURATION:

3. SETTING: General ward / patient's unit

4. OBJECTIVES TO BE ATTAINED IN THAT PARTICULAR INTERACTION:

1) _____

2) _____

Participant Used	Conversation	Inference	Therapeutic Comm Tech
-----------------------------	---------------------	------------------	--------------------------------------

5. NATURE OF TERMINATION OF INTERACTION:

Evaluation by the student:

- 1) Your General impression about the interaction (This could included whether TNPR maintained, use of TCT, CO-operation of client etc.)
- 2) Whether objectives achieved, and to what extent If not why and how do you intend to achieve it.
- 3) Summary of your inferences

Evaluation by teacher

- a) Overall recording
- b) Phases of nurse patient relationship
- c) Use of Therapeutic Communication Techniques
- d) Ability to achieve objectives

NOTE :- Limit objectives to one or two and make all efforts to attain the objectives.

At the end of the process recording mention if you were able to achieve the objectives and to what extents. If not, how you intend to achieve it and what hindered you from achieving it.

Maintained a therapeutic nurse-patient relationship (TNPR) in all you interactions and use many therapeutic communications of the participants

NURSING MANAGEMENT

Placement : II Year

Hours of Instruction

Theory:- 150 Hours

Practical:- 150 Hours

Total :- 300 Hours

Course Description

This course is designed to assist students to develop a broad understanding of Principles, concepts, trends and issues related to nursing management. Further, it would provide opportunity to students to understand, appreciate and acquire skills in planning, supervision and management of nursing services at different levels to provide quality nursing services.

Objectives

At the end of the course, students will be able to:

1. Describe the philosophy and objectives of the health care institutions at various levels.
2. Identify trends and issues in nursing
3. Discuss the public administration, health care administration vis a vis nursing administration
4. Describe the principles of administration applied to nursing
5. Explain the organization of health and nursing services at the various levels/institutions.
6. Collaborate and co-ordinate with various agencies by using multi-sectoral approach
7. Discuss the planning, supervision and management of nursing workforce for various health care settings.
8. Discuss various collaborative models between nursing education and nursing service to improve the quality of nursing care
9. Identify and analyse legal and ethical issues in nursing administration
10. Describe the process of quality assurance in nursing services.
11. Demonstrate leadership in nursing at various levels

(Deemed to be University)

Grade 'A' Accredited by NAAC

ACTIVITIES :-

1. Prepare prototype personal files for staff nurses, faculty and cumulative records
2. Preparation of budget estimate, Revised estimate and performance budget
3. Plan and conduct staff development programme
4. Preparation of Organization Chart
5. Developing nursing standards/protocols for various units
6. Design a layout plan for speciality units /hospital, community and educational institutions
7. Preparation of job description of various categories of nursing personnel
8. Prepare a list of equipments and supplies for speciality units
9. Assess and prepare staffing requirement for hospitals, community and educational institutions
10. Plan of action for recruitment process
11. Prepare a vision and mission statement for hospital, community and educational institutions
12. Prepare a plan of action for performance appraisal
13. Identify the problems of the speciality units and develop plan of action by using problem solving approach
14. Plan a duty roster for speciality units/hospital, community and educational institutions
15. Prepare: anecdotes, incident reports, day and night reports, handing and taking over reports, enquiry reports, nurses notes, Official letters, curriculum vitae, presentations etc
16. Prepare a plan for disaster management
17. Group work
18. Field appraisal report
19. Supervision of subordinates / Students
20. Clinical teaching for staff and students
21. Assist for condemnation procedures
22. Preparation of advertisement

ASSIGNMENT

- Seminar
- Module Preparation (staff development programme)
- Job Description for various category of staff
- Cumulative reword
- Evaluation Performa

CLINICAL SPECIALITY – II

MEDICAL SURGICAL NURSING - CRITICAL CARE NURSING

Placement: II Year

Hours of instruction

Theory:- 150 hours

Practical:- 950 hours

Total :- 1100 hours

Course Description

This course is designed to assist students in developing expertise and in-depth knowledge in the field of Critical Care Nursing. It will help students to develop advanced skills for nursing intervention in caring for critically ill patients. It will enable the student to function as critical care nurse practitioner/ specialist. It will further enable the student to function as educator, manager and researcher in the field of Critical Care Nursing.

Objectives

At the end of the course the students will be able to

1. Appreciate trends and issues related to Critical Care Nursing.
2. Describe the epidemiology, etiology, pathophysiology and diagnostic assessment of critically ill patients
3. Describe the various drugs used in critical care and nurses responsibility
4. Perform physical, psychosocial & spiritual assessment
5. Demonstrate advance skills/competence in managing critically ill patients including Advance Cardiac Life Support.
6. Demonstrate skill in handling various equipments/gadgets used for critical care
7. Provide comprehensive care to critically ill patients.
8. Appreciate team work & coordinate activities related to patient care.
9. Practice infection control measures.
10. Assess and manage pain.
11. Identify complications & take appropriate measures.
12. Discuss the legal and ethical issues in critical care nursing
13. Assist patients and their family to cope with emotional distress, spiritual, grief and anxiety
14. Assist in various diagnostic, therapeutic and surgical procedures
15. Incorporate evidence based nursing practice and identify the areas of research in the field of critical care nursing
16. Identify the sources of stress and manage burnout syndrome among health care providers.
17. Teach and supervise nurses and allied health workers.
18. Design a layout of ICU and develop standards for critical care nursing practice.

ESSENTIAL CRITICAL CARE NURSING SKILLS

I. Procedures Observed

1. CT Scan
2. MRI
3. EEG
4. Hemodialysis
5. Endoscopic Retrograde cholangio Pancreaticogram(ERCP)
6. Heart/ Neuro/GI./ Renal Surgeries

II. Procedures Assisted

1. Advanced life support system
2. Basic cardiac life support
3. Arterial line/arterial pressure monitoring/blood taking
4. Arterial blood gas
5. ECG recording
6. Blood transfusion
7. IV cannulation therapy
8. Arterial Catheterization
9. Chest tube insertion
10. Endotracheal intubations
11. Ventilation
12. Insertion of Central line/CVP line
13. Connecting lines for dialysis

III. Procedure Performed

1. Airway management
 - a. Application of oropharyngeal airway
 - b. Oxygen therapy
 - c. CPAP (Continuous Positive Airway pressure)
 - d. Care of Tracheostomy
 - e. Endotracheal Extubation
2. Cardiopulmonary resuscitation, Basic cardiac life support, ECG
3. Monitoring of critically ill patients – clinically with monitors, capillary refill time (CRT) assessment of jaundice, ECG.
4. Gastric lavage
5. Assessment of critically ill patients
Identification & assessment of risk factors, Glasgow coma scale, and dolls eye movement, arterial pressure monitoring, cardiac output/pulmonary artery pressure monitoring, and detection of life threatening abnormalities

MGM INSTITUTE OF HEALTH SCIENCES, KAMOTHE, NAVI MUMBAI

(Deemed to be University)

Grade 'A' Accredited by NAAC

6. Admission & discharge of critically ill patients
7. Nutritional needs – Gastrostomy feeds, pharyngeal feeds, Jejunostomy feeds, TPN, formula preparation & patient education.
8. Assessment of patient for alteration in blood sugar levels monitoring blood sugar levels periodically & administering insulin periodically.
9. Administration of drugs: IM, IV injection, IV cannulation & fixation of infusion pump, calculation of dosages, use of insulin syringes/ tuberculin, monitoring fluid therapy, blood administration.
10. Setting up dialysis machine and starting, monitoring and closing dialysis
11. Procedures for prevention of infections: Hand washing, disinfection & sterilization surveillance, and fumigation universal precautions.
12. Collection of specimen.
13. Setting, use & maintenance of basic equipment, ventilator, O₂ analyzer, monitoring Equipment, transducers, defibrillator, infusion & syringe pumps, centrifuge machine.

IV Other Procedures:

Teaching Methods

- Lecture
- Group discussion
- Seminar
- Case Presentation
- Case Conferences
- Field Trips (Specialty Hospital)

Clinical Experience

- Case Assignment
- Physical Assessment
- NCP and implementation
- Participation in case conference
- Participation in diagnostic tests, infection control procedures, etc

PROFORMA & GUIDELINES FOR CASE PRESENTATION

I Patent Biodata

Name, Age, Sex Religion, Marital status, Occupation, Source of health care, Date of admission, Provisional Diagnosis, Date of surgery if any.

II Presenting complaints

Describe the complaints with which the patient has been brought to the hospital

III Socio-economic status of the family:

Monthly income, expenditure on health, food, education etc.

IV History of Illness (Medical & Surgical)

- i) History of present illness – onset, symptoms, duration, precipitating/ aggravating factors
- ii) History of past illness surgery, allergies, medications etc.
- iii) Family history – Family tree, history of illness in the family members, risk factors congenital problem, psychological problem etc.

V Diagnosis (Provisional & Confirmed)

Description of disease: Includes the followings

1. Definition
2. Etiology & risk factors
3. Patho physiology
4. Clinical features.

VI Physical Examination of Patient (Date & Time)

Physical examination: with date and time.

Clinical features present in the book Present in the Patient

VII Investigations

Date	Investigation done	Results	Normal Value	Interfaces

CLINICAL SPECIALITY – II

OBSTETRIC AND GYNAECOLOGICAL NURSING

Placement - II Year

Hours of Instruction

Theory:- 150 hrs

Practical :- 950 hrs

Total:- 1100 hrs

Course Description

This course is designed to assist the student in developing expertise and in-depth understanding in the field of Obstetric and gynecological Nursing .It will help the student to develop advanced nursing skills for nursing interventions in various obstetrical and gynecological conditions. It will further enable the students to function as midwifery nurse practitioner/ specialist, educator, manager and researcher in the field of obstetric and gynecological nursing.

Objectives

At the end of the course, the student will be able to:

1. Describe the epidemiology, etiology, pathophysiology and diagnostic assessment of women with obstetric and gynaecological conditions
2. Perform physical, psychosocial, cultural & spiritual assessment
3. Demonstrate competence in caring for women with obstetrical and gynaecological conditions
4. Demonstrate competence in caring for high risk newborn.
5. Identify and Manage obstetrical and neonatal emergencies as per protocol.
6. Practice infection control measures
7. Utilize recent technology and various diagnostic, therapeutic modalities in the management of obstetrical, gynecological and neonatal care.
8. Demonstrate skill in handling various equipments/gadgets used for obstetrical, gynaecological and neonatal care
9. Teach and supervise nurses and allied health workers.
10. Design a layout of speciality units of obstetrics and gynecology
11. Develop standards for obstetrical and gynaecological nursing practice.
12. Counsel women and families
13. Incorporate evidence based nursing practice and identify the areas of research in the field of obstetrical and gynaecological nursing
14. Function as independent midwifery nurse practitioner
15. Explain the national health programmes in relation to obstetrical and gynaecological nursing

**MGM INSTITUTE OF HEALTH SCIENCES,
KAMOTHE, NAVI MUMBAI**

(Deemed to be University)

CONTENTS OUTLINE

UNIT	HOURS	Course Content
I	25	<p>Management of problems of women during pregnancy Risk approach of obstetrical nursing care , concept &goals. Screening of high-risk pregnancy, newer modalities of diagnosis. Nursing Management of Pregnancies at risk-due to obstetrical complication</p> <ul style="list-style-type: none"> • Pernicious Vomiting. • Bleeding in early pregnancy, abortion, ectopic pregnancy, and gestational trophoblastic diseases. • Hemorrhage during late pregnancy, ante partum hemorrhage, Placenta praevia, abruptio placenta. • Hypertensive disorders in pregnancy, pre-eclampsia, eclampsia, Hemolysis Elevated liver enzyme Low Platelet count (HELLP) • Iso-immune diseases. Rh and ABO incompatibility • Hematological problems in pregnancy. • Hydramnios-oligohydramnios • Prolonged pregnancy- post term, post maturity. • Multiple pregnancies. • Intra uterine infection & pain during pregnancy. • Intra Uterine Growth Retardation(IUGR), Premature Rupture of Membrane(PROM), intra uterine death
II	15	<p>Pregnancies at risk-due to pre-existing health problems</p> <p>Metabolic conditions.</p> <ul style="list-style-type: none"> • Anemia and nutritional deficiencies • Hepatitis • Cardio-vascular disease. • Thyroid diseases. • Epilepsy. • Essential hypertension • Chronic renal failure. • Tropical diseases. • Psychiatric disorders • Infections Toxoplasmosis Rubella Cytomegalo virus Herpes (TORCH); Reproductive Tract Infection(RTI);STD; HIV/AIDS, Vaginal infections; Leprosy, Tuberculosis • Other risk factors: Age- Adolescents, elderly; unwed mothers, sexual abuse, substance use • Pregnancies complicating with tumors, uterine anomalies, prolapse, ovarian cyst

**MGM INSTITUTE OF HEALTH SCIENCES,
KAMOTHE, NAVI MUMBAI**

(Deemed to be University)

Grade 'A' Accredited by NAAC

III	15	Abnormal labour, pre-term labour & obstetrical emergencies Etiology, pathophysiology and nursing management of <ul style="list-style-type: none">• Uncoordinated uterine actions, Atony of uterus, precipitate labour, prolonged labour.• Abnormal lie, presentation, position compound presentation• Contracted pelvis-CPD; dystocia• Obstetrical emergencies Obstetrical shock, vasa praevia, inversion of uterus, amniotic fluid embolism, rupture uterus, presentation and prolapse cord.• Augmentation of labour. Medical and surgical induction.• Version• Manual removal of placenta.• Obstetrical operation: Forceps delivery, Ventouse, Caesarian section, Destructive operations• Genital tract injuries-Third degree perineal tear, VVF, RVF Complications of third stage of labour:<ul style="list-style-type: none">• Post partum Hemorrhage.• Retained placenta.
IV	10	Post partum complications <ul style="list-style-type: none">• Nursing management of Puerperal infections, puerperal sepsis, urinary complications, puerperal venous thrombosis and pulmonary embolism• Sub involution of uterus, Breast conditions, Thrombophlebitis• Psychological complications, post partum blues, depression, psychosis

**MGM INSTITUTE OF HEALTH SCIENCES,

**Total = 960 Hours
1 Week = 30 Hours**

Sr.No.	Dept./ Unit	No. of Week	Total Hours
1	Antenatal OPD including Infertility clinics/ Reproductive medicine, Family welfare and post partum clinic / PTCT	6	180 Hours
2	Antenatal and Postnatal ward	6	180 Hours
3	Labour room	4	120 Hours
4	Neonatal Intensive Care Unit	3	90 Hours
5	Obstetric/Gynae Operation Theatre	3	90 Hours
6	Gynae Ward	4	120 Hours
7	CHC, PHC, SC	6	180 Hours
	Total	32 Weeks	960 Hours

Essential Obstetrical And Gynecological Skills Procedure Observed

- Assisted Reproductive Technology procedures
- Ultra Sonography
- Specific laboratory tests.
- Amniocentesis.
- Cervical & vaginal cytology.
- Foetoscopy.
- Hysteroscopy.
- MRI.
- Surgical diathermy.
- Cryosurgery.

Procedures Assisted

- Operative delivery
- Abnormal deliveries-Forceps application, Ventouse, Breech
- Exchange blood transfusion
- Culdoscopy.
- Cystoscopy
- Tuboscopy
- Laparoscopy.
- Endometrial Biopsy
- Tubal patent test
- Chemotherapy
- Radiation therapy
- Medical Termination of Pregnancy
- Dilatation and Curettage

MGM INSTITUTE OF HEALTH SCIENCES, KAMOTHE, NAVI MUMBAI

(Deemed to be University)
Grade 'A' Accredited by NAAC

Procedures Performed

- History taking.
- Physical Examination-General
- Antenatal assessment. – 20
- Pelvic examination
- Assessment of risk status.
- Assessment of Intra uterine foetal well-being.kick chart and foetal movement chart, Doppler assessment, Non Stress Test, Contraction stress test(Oxytocin challenge test)
- Universal precautions- Disposal of biomedical waste.
- Per Vaginal examination and interpretation (early pregnancy, labour, post partum).
- Utilization of Partograph
- Medical & Surgical induction(Artificial rupture of membranes).
- Vacuum extraction
- Conduct of delivery.
- Prescription and administration of fluids and electrolytes through intravenous route.
- Application of outlet forceps, delivery of breach – Burns Marshall, Love set maneuver
- Repair of tears and Episiotomy suturing.
- Vacuum extraction
- controlled cord traction, Manual removal of placenta, placental examination,
- Manual vacuum aspiration
- Postnatal assessment.- 20
- Management of breast engorgement
- Thrombophlebitis (white leg)
- Postnatal counseling.
- Reposition of inversion of uterus.
- Laboratory tests: Blood- Hb, Sugar, Urine-albumin,sugar
- Breast care, breast exam, and drainage breast abscess.
- Postnatal exercise.
- Assessment –New born assessment; physical and neurological, Apgar score, high-risk newborn, Monitoring neonates; Clinically and With monitors, Capillary refill time, Assessment of jaundice, danger signs
- Anthropometric measurement
- Neonatal resuscitation
- Gastric Lavage
- Care of newborn in multi channel monitor and ventilator.
- Care of newborn in radiant warmer and incubator.
- Kangaroo mother care.
- Assisting mother with exclusive Breast-feeding
- Feeding technique: Katori, spoon, naso/orogastric, Total Parenteral nutrition
- Assessment, calculation and administration of fluids and medications:
 - Oral
 - I.D.
 - I.M.
 - I.V.- Securing IV line, infusion pump
 - Administration of drug per rectum
 - Capillary blood sample collection.
 - Oxygen therapy.

MGM INSTITUTE OF HEALTH SCIENCES, KAMOTHE, NAVI MUMBAI

(Deemed to be University)

Grade 'A' Accredited by NAAC

- Phototherapy.
- Chest physiotherapy.
- counseling – Parental, bereavement, family planning, infertility etc
- Setting of operation theatre.
-
- Trolley and table set up for Obstetrical & gynaecological operations.
 - Pap smear.
 - Vaginal smear.
 - Insertion of pessaries,
 - Insertion of IUD and removal.
 - Teaching skills
 - communication skills
 - Prepare referral slips
 - Pre transport stabilization
 - Networking with other stake holders

LIST OF BOOKS FOR OBSTETRICS AND GYNECOLOGY & NEONATOLOGY

1. Buckley Kathleen and Kulb Nancy W, "High Risk Maternity Nursing Manual" Edn, Williams & Wilkin, 1993, Philadelphia.
2. Bennet V Ruth & Brown K Linda, "Myle" text Book for Midwives, ELBS, Churchill Livingstone
3. Calendar, R & A miller, 'Obstetrics illustrated' IV edn, Churchill & Livingstone New York, 1993.
4. Dawn C.S. "Textbook of Obstetrics and Neonatology", Dawn Books, Calcutta.
5. Dawn C.S. "Textbook of Gynecology and contraception", Dawn Books, Calcutta.
6. D.C. Dutta, "Text Book of Obstetrics", VIth edn New Central Agency (p) Calcutta, 2001.
7. D.C. Dutta, "Text Book of Gynecology", Vth edn New Central Agency (p) Calcutta, 2001.
8. Daftary Shrish N EL Al, "Holland and Brews Manual of Obstetrics", XVI edn, B I Churchill Livingstone PVT. Ltd. New Delhi.
9. Dickson Elizabeth Jean et al, "Maternal infant Nursing care, II edn 1998, Mosby, ST.Louis.
10. Goodner Brech, "Concepts of Obstetrics Nursing", I edn, Skidmore, Roth Publishing INC, 1994, Texas.
11. Gorje Trula Myers et al, "Foundations of maternal New Born Nursing", II edn, W B Saunders coy, Philadelphia, 1998.
12. Hollan and Brews, "Manual of Obstetrics", BI Chuchill Livingstone
13. Ladewings Patricia Wieland et al, "Essentials of Maternal Newborn Nursing", Iiedn, Addisol Wesley Nursing NY 1990.
14. Menon Krishna & Palaniappan, "Clinical Obstetrics", IX Edn Orient Longman, 1990, Madras
15. Rashmi Patil, "Instruments, Operatutions, Drugs in Obstetrics and Gynecology", Vora Medical Publications.
16. Ohilips Celeste R, "Family centered Maternity New Born Care", III edn, Mosby New year Book, St. Louis, Lond

ANTENATAL CASE PRESENTATION FORMAT

1. Identification Data

Patient:- Name, Age in years, Dr's unit, reg.no. Education, occupation, income, religion, marital status, duration of marriage Gravida, para, abortion living, blood group

Husband: Name, Age, education, occupation, income, blood group

2. Present complaints

3. History of illness

4. Menstrual history: - Age of menarche, duration of menstrual cycle, duration of cycle in days, Regularity, amount of flow, LMP, EDD, Associated complaints

5. Contraceptive history:

6. Antenatal attendance:- Date, Weight, Pallor, edema, BP, Weight. Ht, Presentation/ Position, FHS, Hb, Urine albumin/sugar, treatment

7. Obstetric History:- H/O Previous pregnancy / deliveries, period of Pregnancy, type of labour / Delivery, birth weight, PNC, condition, remarks

8. Present pregnancy:- Date of booking, number of ANC visits, H/O minor ailments

9. Past medical, surgical history:

10. Family history:

11. Diet History:

12. Socioeconomic status

13. Personal habits

14. Psychosocial status

15. Physical Assessment: General examination: Head to foot

Obstetric Palpation, Auscultation

16. Conclusion

17. Investigation

18. Treatment

19. Description of disease

PROFORMA & GUIDELINES FOR CASE PRESENTATION

I Patent Biodata

Name, Age, Sex Religion, Marital status, Occupation, Source of health care, Date of admission, Provisional Diagnosis, Date of surgery if any.

II Presenting complaints

Describe the complaints with which the patient has been brought to the hospital

III Socio-economic status of the family:

Monthly income, expenditure on health, food, education etc.

IV History of Illness (Medical & Surgical)

- i) History of present illness – onset, symptoms, duration, precipitating/ aggravating factors
- ii) History of past illness surgery, allergies, medications etc.
- iii) Family history – Family tree, history of illness in the family members, risk factors congenital problem, psychological problem etc.

V Diagnosis (Provisional & Confirmed)

Description of disease: Includes the followings

1. Definition
2. Etiology & risk factors
3. Patho physiology
4. Clinical features.

VI Physical Examination of Patient (Date & Time)

Physical examination: with date and time.

Clinical features present in the book Present in the Patient

VII Investigations

Date	Investigation done	Results	Normal Value	Interfaces

PEDIATRIC (CHILD HEALTH) NURSING

Placement : II Year

Hours of Instruction

Theory:- 150 hours

Practical :-950 hours

Total :- 1100 hours

Course Description

This course is designed to assist students in developing expertise and in-depth understanding in the field of Pediatric Nursing. It will help students to develop advanced skills for nursing intervention in various pediatric medical and surgical conditions. It will enable the student to function as pediatric nurse practitioner/specialist. It will further enable the student to function as educator, manager, and researcher in the field of Paediatric nursing

Objectives

At the end of the course the students will be able to:

1. Apply the nursing process in the care of ill infants to pre adolescents in hospital and community
2. Demonstrate advanced skills/competence in nursing management of children with medical and surgical problems
3. Recognize and manage emergencies in children
4. Provide nursing care to critically ill children
5. Utilize the recent technology and various treatment modalities in the management of high risk children
6. Prepare a design for layout and describe standards for management of pediatric units/hospitals
7. Identify areas of research in the field of pediatric nursing

**MGM INSTITUTE OF HEALTH SCIENCES,
KAMOTHE, NAVI MUMBAI**

(Deemed to be University)

Grade 'A' Accredited by NAAC

COURSE CONTENT

UNIT	HOURS	Course Content
I	5	<p>Introduction Current principles, practices and trends in Pediatric Nursing Role of pediatric nurse in various settings -Expanded and extended</p>
II	35	<p>Pathophysiology, assessment(including interpretation of various invasive and non-invasive diagnostic procedures), treatment modalities and nursing intervention in selected pediatric medical disorders</p> <ul style="list-style-type: none"> • Child with respiratory disorders: <ul style="list-style-type: none"> - Upper respiratory tract: choanal atresia, tonsillitis, epistaxis, aspiration. - Lower respiratory tract: Broncheolitis, Bronchopneumonia, Asthma, cystic fibrosis • Child with gastro-intestinal disorders: <ul style="list-style-type: none"> - Diarrheal diseases, gastro-esophageal reflux. - Hepatic disorders: Hepatitis, Indian childhood cirrhosis, liver transplantation. - Malabsorption syndrome, Malnutrition • Child with renal/ urinary tract disorders: Nephrotic syndrome, Nephritis, Hydronephrosis, hemolytic-uremic syndrome, kidney transplantation • Child with cardio-vascular disorders: <ul style="list-style-type: none"> - Acquired: Rheumatic fever, Rheumatic heart disease, - Congenital: Cyanotic and acyanotic • Child with endocrine/metabolic disorders: Diabetes insipidus, Diabetes Mellitus – IDDM, NIDDM, hyper and hypo thyroidism, phenylketonuria, galactosemia • Child with Neurological disorders: Convulsions, Meningitis, encephalitis, guillian- Barre syndrome • Child with oncological disorders: Leukemias, Lymphomas, Wilms' tumor, nephroblastomas, neuroblastomas, Rhabdomyosarcoma, retinoblastoma, hepatoblastoma, bone tumors • Child with blood disorders: Anemias, thalassemias, hemophilia, polycythemia, thrombocytopenia, and disseminated intravascular coagulation • Child with skin disorders • Common Eye and ENT disorders • Common Communicable diseases

3	NICU	4	120 Hours
4	Pediatric OT	2	60 Hours
5	Pediatric medicine ward	6	180 Hours
6	Pediatric surgery ward	6	180 Hours
7	Emergency/Casualty	4	120 Hours
8	Field visits*	2	60 Hours
	Total	32	960 Hours

*Child care center, Anganwadi, play school, Special schools for challenged children, Juvenile court, UNICEF, Orphanage, Creche, SOS village

Essential

I. Procedures Observed:

- Echo cardiogram
- Ultrasound head
- ROP screening (Retinopathy of prematurity)
- Any other

II. Procedures Assisted

- Advanced neonatal life support
- Lumbar Puncture
- Arterial Blood Gas
- ECG Recording
- Umbilical catheterization – arterial and venous
- Arterial B P monitoring
- Blood transfusion- exchange transfusion full and partial
- IV cannulation & therapy
- Arterial catheterization
- Chest tube insertion
- Endotracheal intubation
- Ventilation
- Insertion of long line
- Assist in surgery

MGM INSTITUTE OF HEALTH SCIENCES, KAMOTHE, NAVI MUMBAI

(Deemed to be University)

Grade 'A' Accredited by NAAC

III. Procedures Performed:

- Airway Management
- Application of Oro Pharyngeal Airway
- Oxygen therapy
- CPAP(Continuous Positive Airway Pressure)
- Care of Tracheostomy
- Endotracheal Intubation
- Neonatal Resuscitation
- Monitoring of Neonates – clinically & with monitors, CRT(Capillary Refill Time), assessment of jaundice, ECG
- Gastric Lavage
- Setting of Ventilators
- Phototherapy
- Assessment of Neonates: Identification & assessment of risk factors, APGAR Score, gestation age, Anthropometric assessment, Weighing the baby, Newborn examination, detection of life threatening congenital abnormalities,
- Admission & discharge of neonates
- Feeding - management of breast feeding, artificial feeding, expression of breast milk, OG (Orogastric) tube insertion, gavage feeding, TPN, Breast feeding counseling
- Thermoregulation- Axillary temperature, Kangaroo Mother Care (KMC), Use of Radiant warmer, incubators, management of thermoregulation & control
- Administration of Drugs: I/M, IV injection, IV Cannulation & fixation infusion pump, Calculation of dosages, Neonatal formulation of drugs, use of tuberculin/ insulin syringes, Monitoring fluid therapy, Blood administration.
- Procedures for prevention of infections: Hand washing, disinfections & sterilization, surveillance, fumigation
- Collection of specimens
- Setting, Use & maintenance of basic equipment: Ventilator, O2 analyzer, monitoring equipment, Photo therapy unit, Flux meter, Infusion pump, Radiant warmer, incubator, Centrifuge machine, Bilimeter, Refractometer, laminar flow

PERFORMA & GUIDELINES FOR CASE STUDY

I] Patient's Biodata

Name, Age, Sex, Religion, Marital Status, Occupation, Source of Health Care, Date of Admission,

Provisional Diagnosis, Date of Surgery if any.

II] Presenting complaints

Describe the complaints with which the child has been admitted to the ward.

III] Child's Personal data:

- Obstetrical history of mother
- Prenatal & natal history
- Growth & Development (Compare with normal)
- Immunization status
- Dietary pattern including weaning
- Nutritional status
- Play habits
- Toilet training habits
- Sleep pattern
- Schooling

IV] Socio-economic status of family:

Monthly income, expenditure on health, food education

V] History of Illness

1. History of present illness – onset, symptoms, during, precipitating/ aggregating factors
2. History of past illness – Illness, hospitalizations, surgeries allergies.
3. Family History – Family tree, family history of illness, risk factors, congenital problem, psychological
a. problem.

VI] Diagnosis:- Provisional & confirm.

VII] Description of disease: Included the following:

1. Definition
2. Related anatomy and physiology
3. Etiology & risk factor
4. Path physiology
5. Clinical features

VIII] Physical Examination of patient

Clinical features present in the book present in the patient

IX] Investigations:-

Date Investigation done Result Normal value Inference

Course Description

This course is designed to assist students in developing expertise and in-depth understanding in the field of community health nursing. It will help students to develop advanced skills for nursing intervention in various aspects of community health care settings. It will enable the student to function as community health Nurse practitioner/specialist. It will further enable the student to function as educator, manager and researcher in the field of community health nursing.

Objectives

At the end of the course the students will be able to:

1. Appreciate trends and issues related to community health Nursing-reproductive and child health, school health, Occupational health, international health, rehabilitation, geriatric and mental health.
2. Apply epidemiological concepts and principles in community health nursing practice
3. Perform community health assessment and plan health programmes
4. Describe the various components of Reproductive and child health programme.
5. Demonstrate leadership abilities in organizing community health nursing services by using inter-sectoral approach.
6. Describe the role and responsibilities of community health nurse in various national health and family welfare programmes
7. Participate in the implementation of various national health and family welfare programme
8. Demonstrate competencies in providing family centered nursing care independently
9. Participate/Conduct research for new insights and innovative solutions to health problems
10. Teach and supervise nurses and allied health workers.
11. Design a layout of sub center/Primary health center/Community health centre and develop standards for community health nursing practice.

Assisted

- Laparoscopic sterilization
 - Vasectomy
 - All clinics related to RCH
- Monitoring of national health and family welfare programmes

Performed

- Conduct various clinics
- School health assessment.
- Health survey.
- Health assessment
- Drug administration as per the protocols
- Treatment of minor ailments
- Investigating outbreak of epidemic.
- Screening for leprosy, TB and non-communicable disease
- Presumptive and radical treatment for Malaria.
- Counseling
- Report writing
- Referrals
- Writing a project proposal
- Material management- requisition for indent, condemnation, inventory maintenance,
- Training and Supervision of various categories of personnel
- Liaison with NGO's

PSYCHIATRIC (MENTAL HEALTH) NURSING

Placement: II Year

Hours of Instruction

Theory:- 150 hrs

Practical:- 950 hrs

Total :- 1100 Hours

Course Description

This course is designed to assist students in developing expertise and in-depth understanding in the field of Psychiatric Nursing. It will help students to develop advanced skills for nursing intervention in various psychiatric conditions. It will enable the student to function as psychiatric nurse practitioner/specialist. It will further enable the student to function as educator, manager, and researcher in the field of Psychiatric nursing

Objectives

At the end of the course the students will be able to:

1. Apply the nursing process in the care of patients with mental disorders in hospital and community
2. Demonstrate advanced skills/competence in nursing management of patients with mental disorders
3. Identify and care for special groups like children, adolescents, women, elderly, abused and neglected, people living with HIV/AIDS.
4. Identify and manage psychiatric emergencies.
5. Provide nursing care to critically ill patients with mental disorders
6. Utilize the recent technology and various treatment modalities in the management of patients with mental disorders
7. Demonstrate skills in carrying out crisis intervention.
8. Appreciate the legal and ethical issues pertaining to psychiatric nursing.
9. Identify areas of research in the field of psychiatric nursing.
10. Prepare a design for layout and describe standards for management of Psychiatric units/emergency units/hospitals
11. Teach psychiatric nursing to undergraduate students & in-service nurses.
12. Explain the national health programmes in relation to mental health nursing.

**SECOND YEAR M.Sc. NURSING
CLINICAL SPECIALITY – II MENTAL HEALTH NURSING
INSTRUCTIONS FOR SETTING QUESTION PAPER**

**Marks :- 75
Time :- 3 Hours**

SECTION A

- Q.1) Write Short Answers on any 3 out of 4** **Marks 38**
3 X 5 = 15 Marks
- a. 5 Marks
 - b. 5 Marks
 - c. 5 Marks
 - d. 5 Marks
- Q.2) Long Answers Questions** **15 Marks**
- a. 2 Marks
 - b. 5 Marks
 - c. 8 Marks
- Q.3) Write explanatory notes on any 1 out of 3** **1 X 8 = 8 Marks**
- a.
 - b.
 - c.

SECTION B

Marks 37

- Q.1) Write Short Answers on any 3 out of 4** **3 X 5 = 15 Marks**
- a. 5 Marks
 - b. 5 Marks
 - c. 5 Marks
 - d. 5 Marks
- Q.2) Long Answers Questions** **15 Marks**
- a. 2 Marks
 - b. 5 Marks
 - c. 8 Marks
- Q.3) Write explanatory notes on any 1 out of 3** **1 X 7 = 7 Marks**
- a.
 - b.
 - c.

FORMAT FOR DRUG BOOK

Sr. No.	Trade name & Pharmacological name	Indications	Dose & Route	Side effects / adverse drug response	Contraindications	Nursing implications	Current research evidence	Indication in patient if applicable

**MGM INSTITUTE OF HEALTH SCIENCES,
KAMOTHE, NAVI MUMBAI**

(Deemed to be University)

Grade 'A' Accredited by NAAC

SECOND YEAR M.Sc. NURSING

CLINICAL SPECIALITY – II MENTAL HEALTH NURSING

PSYCHIATRIC NURSING HISTORY COLLECTIVE FORMAT

I Demographic data:

- Name
- Age
- Sex
- Marital Status
- Religion
- Occupation
- Socio-economic status
- Address
- Informant
- Information (Relevant or not) adequate or not

II Chief Complaints / Presenting complaints (List with duration)

- In patients own words and in informants own words.
E.g.:- Sleeplessness x 3 weeks
- Loss of appetite & hearing voices x 2 weeks
- Talking to self

III Present psychiatric history/nature of the current episode

- Onset – Acute (Within a few hours)
- Sub acute (Within a few days)
- Gradual (Within a few weeks)
- Duration – Days, weeks or months
- Course – Continuous/ episodic
- Intensity/ same / increasing or decreasing
- Precipitating factors – Yes / No (If yes explain)
- History of current episode (explain in details regarding the presenting complaints)
- Associated disturbances – included present medical problems (E.G. Disturbance in sleep, appetite, IPR & Social functioning, occupation etc).

IV Past Psychiatric history:

- Number of episode with onset and course
- Complete or incomplete remission
- Duration of each episode
- Treatment details and its side effects if any
- Details if any precipitating factors if present

**MGM INSTITUTE OF HEALTH SCIENCES,
KAMOTHE, NAVI MUMBAI**

(Deemed to be University)

Grade 'A' Accredited by NAAC

- V**
- a) **Past Medical History**
 - b) Past Surgical History
 - c) Obstetrical History (Female)

VI Family History :-

- Family Genogram – 5 Generations include only grandparents. But if there is a family history
Include the particular generation

VII Personal History:-

- Pre-natal history – Maternal infections
- Exposure to radiation etc.
- Check ups
- Any complications
- Natal history – Type of delivery
- Any complications
- Breath and cried at birth
- Neonatal infections
- Mile stones : Normal or delayed Behaviour during childhood
- Excessive temper tantrums
- Feeding habit
- Neurotic symptoms
- Pica
- Habit disorders
- Excretory disorders etc.

Illness during childhood

- Look specifically for CNS infections
- Epilepsy
- Neurotic disorders
- Malnutrition

Schooling

- Age of going school
- Performance in the school
- Relationship with peers
- Relationship with teachers (Specifically look for learning disability and attention deficit)
- Look for conduct disorders E.G. Truancy, Stealing

VIII Occupational history

- Age of Joining job

MGM INSTITUTE OF HEALTH SCIENCES, KAMOTHE, NAVI MUMBAI

(Deemed to be University)

Grade 'A' Accredited by NAAC

- Relationship with superiors, subordinates & colleagues
- Any Change in the job – if any give details
- Reasons for changing jobs
- Frequent absenteeism

IX Sexual history

- Age of attaining puberty (female – menstrual cycles are regular)
- Source and extent of knowledge about sex, any exposures
- **Marital Status:** with genogram.

X Pre morbid personality: (Personality of a patient consists of those habitual attitudes and patterns of

behavior which characterize an individual. Personality sometimes changes after the onset of an illness.

Get a description of the personality before the onset of the illness. Aim to build up a picture of the individual, not type, enquiry with respect to the following areas.)

- 1. Attitude to others in social and sexual relationship:-** Ability to trust other, mark and sustain Relationship, anxious or secure, leader to follower, Participation, responsibility, capacity to make decision, dominant or submissive, friendly or emotionally cold, etc. Difficulty in role taking –gender, sexual, familial.

SECOND YEAR M.Sc. NURSING

CLINICAL SPECIALITY – II MENTAL HEALTH NURSING

MENTAL STATUS EXAMINATION (MSE) FORMAT

I General appearance and behavior (GAAB):

- a) Facial expression (E.G. Anxiety, Pleasure, Confidence, Blunted, Pleasant)
- b) Posture (Stooped, stiff, guarded, normal)
- c) Mannerisms (Stereotype, negativism, tics, normal)
- d) Eye to eye contact (maintained or not)
- e) Rapport (Built easily or not built or built with difficulty)
- f) Consciousness (conscious or drowsy or unconscious)
- g) Behaviour (includes social behaviour, E.g. Overfriendly, disinherited, preoccupied, aggressive, normal)
- h) Dressing and grooming – well dressed/ appropriate / inappropriate (to season and situation) neat and tidy/dirty.
- i) Physical features :- Look older/younger than his or her age/under weight/over weight/ physical deformity.

II Psychomotor Activity:-

Increase / decreased / Compulsive/echopraxia/ Stereotypy / irrelevant automatic obedience)

III Speech: One sample of speech (verbatim in 2 or 3 sentences)

- a) Coherence – coherent / incoherent
- b) Relevance (answer the questions appropriately) – relevant /irrelevant.
- c) Volume (Soft, loud or normal)
- d) Tone (high pitch, low pitch, or normal/monotonous)
- e) Manner – Excessive formal /relaxed/inappropriately familiar.
- f) Reaction time (time taken to answer the question)-increased, decreased or normal

IV Thought:

- a) Form of thought /formal thought disorder – not understandable / normal/ circumstantiality / tangentiality / neologism / word salad/ preservation / ambivalence).
- b) Stream of thought / flow of thought – pressure of speech / flight of ideas/ thought retardation/ mutism /aphonia / thought block / Clang Association.)
- c) Content of thought
 - i. Delusions – specify type and give example – Persecutory/ delusion of reference / delusions of influence or passivity/hypochondriacal
 - ii. delusions /delusions of grandeur / nihilistic- Deracialization / depersonalization / delusions of infidelity.
 - iii. Obsession
 - iv. Phobia
 - v. Preoccupation
 - vi. Fantasy – Creative / Day dreaming

**MGM INSTITUTE OF HEALTH SCIENCES,
KAMOTHE, NAVI MUMBAI**

(Deemed to be University)

Grade 'A' Accredited by NAAC

V Mood (Subjective) and after (Objective) :

- a. Appropriate/inappropriate Relevance to situation and thought congruent.
- b. Pleasurable affects-Euphoria / Elation / Exaltation / Ecstasy
- c. Unpleasurable affects – Grief / mourning / depression.
- d. Other affects-Anxiety / fear / Panic/free floating anxiety/apathy/ aggressive / moods swing / emotional liability

VI Disorders Perception:

- a. Illusion
- b. Hallucinations – (Specify type and give example) – auditory /visual/olfactory /gustatory /tactile
- d. Others – hypnologic / hypnopombic /Lilliputian / kinesthetic / macropsia / micropsia

VII Cognitive functions :

a) Attention and concentration:

- Method of testing (asking to list the months of the year forward and backward)
- Serial subtractions (100-7)

b) Memory:

- a) Immediate (Teach an address a& after 5 mts. Asking for recall)
- b) Recent Memory – 24 hrs recall
- c) Remote : Asking for dates of birth or event which are occurred long back
 - i) Amnesia / paramnesia / retrograde amnesia / anterograde amnesia
 - ii) Confabulation
 - iii) Déjà vu / Jamaes Vu
 - iv) Hypermnesia

c) Orientation:

- a. Time approximately without looking at the watch, what time is it?
- b. Place – Where he / she is now?
- c. Person – who has accompanied him or her

d) Abstraction: Give a proverb and ask the inner meaning (E.g. feathers of a bird flock together / rolling stones gather no mass)

e) Intelligence & General Information: Test by carry over sums/ similarities and differences / and general information / digit score test.

f) Judgment: Personal (Future plans)

- Social (Perception of the society)
- Test (Present a situation and ask their response to the situation)

g) Insight:-

- a. Complete denial of illness
- b. Slight awareness of being sick
- c. Awareness of being sick attribute it to external/physical factor.

**MGM INSTITUTE OF HEALTH SCIENCES,
KAMOTHE, NAVI MUMBAI**

(Deemed to be University)

Grade 'A' Accredited by NAAC

- d. Awareness of being sick, but due to something unknown in himself.
- e. Intellectual insight
- g) True emotional insight

VIII General Observations :-

a) Sleep

- i. Insomnia – temporary / persistent
- ii. Hypersomnia – temporary / persistent
- iii. Non-organic – sleep – wake cycle disturbance
- iv. EMA-Early Morning Awakening

- b) Episodic disturbances** – Epilepsy / hysterical / impulsive behaviour/ aggressive behaviour
/ destructive behaviour
